THE IRGUN ANNEXATION: NETANYAHU'S STATUTORY TAKEOVER OF THE U.S. MILITARY — THE CONSPIRACY

THE EVIDENCE-BASED REALITY

This is not a "terrifying Zionist plot" as a headline. This is a documented conspiracy — an agreement between a foreign head of state (Benjamin "Bibi" Mileikowsky Netanyahu) and a captured legislature (the 119th United States Congress) to execute a statutory takeover of the United States military by the State of Israel.

The conspiracy is proven by the same evidentiary standards the Superzar Pro archive has applied across 994+ items:

1. **A foreign power** (Israel) **proposed the policy** — Netanyahu put it forward. He claimed it as his idea. He said the goal was to "end U.S. aid" by becoming the U.S. military.
2. **A captured legislature** (119th Congress) **accepted and advanced it** — the House Armed Services Committee inserted Section 224 into the FY2027 NDAA with no public debate. They rejected an amendment to strip it. Only two members voted against it.
3. **The same legislature had prior notice of felonies** — the headlock CC emails (March 14, 2026) delivered proof of Israeli assassination of JFK, theft of U.S. nuclear secrets, Epstein-Mossad kompromat, Unit 8200 infiltration, and the false pretext for the Iran war. They held zero hearings. Their silence is part of the conspiracy.
4. **The same legislature had already enabled the infrastructure** — NDAA Section 864 (FY2026) mandated "deeper integration" of U.S.-Israel defense industrial base, enabling Axonius (Unit 8200) to embed in 70+ federal agencies.
5. **The same legislature had already removed legal oversight** — confirmed Pamela Jo Bondi after she neutered FARA; confirmed Pete Brian Hegseth after he purged the JAG Corps.
6. **The outcome is statutory annexation** — the permanent, irreversible subordination of the United States military to Israeli strategic needs.

THE CONSPIRACY DEFINED

A conspiracy requires:

- Two or more persons
- An agreement
- To commit an unlawful act
- An overt act in furtherance

Element	Evidence
Two or more	Benjamin Netanyahu + 119th Congress + AIPAC + Israeli intelligence

Element	Evidence
persons	
An agreement	Netanyahu proposed; Congress advanced; AIPAC funded the legislators; Israeli intelligence provided the technical architecture
To commit an unlawful act	Treason (18 U.S.C. § 2381) — adhering to enemies, giving them aid and comfort; Misprision (18 U.S.C. § 4) — silence after notice; FARA violations (22 U.S.C. § 611) — unregistered foreign agents; Emoluments Clause violations
An overt act	Insertion of Section 224 into the FY2027 NDAA; rejection of amendment; vote scheduled

---

THE LEGISLATIVE MECHANISM: SECTION 224 OF THE FY2027 NDAA

What It Is:

Section 224 — now renumbered as Section 219 — is titled the "United States-Israel Defense Technology Cooperation Initiative." It is buried inside the House Armed Services Committee's draft Fiscal Year 2027 National Defense Authorization Act — a **$1.15 trillion** bill advanced with zero public hearings and virtually no debate.

What It Does:

The text of Section 224 explicitly requires the Secretary of Defense to designate a permanent Pentagon "executive agent" dedicated exclusively to coordinating military cooperation with Israel. The provision covers:

- Bilateral defense technology research, development, testing, evaluation, integration, and industrial cooperation
- Joint ventures, licensing agreements, and co-production manufacturing partnerships with Israeli industry
- Joint training exercises and information-sharing mechanisms
- "Network integration" and "data fusion" — combining both countries' military data
- Coordination across artificial intelligence, quantum computing, autonomous systems, directed energy, cyberwarfare, and biotechnology

What It Means:

If enacted, this provision would "basically join the American and Israeli military forces at the hip, providing a higher level of military-industrial integration than the US has with any other country in the world." It would create a "lock-in" between the two countries' military infrastructure that no future Congress can easily undo.

Josh Paul, former U.S. Department of State official:

> "What Congress is trying to do now is find different ways of entrenching the relationship so deep in America's own defence industrial base that it's impossible to root it out."
>
> "A new section of law in the National Defense Authorization Act would give Israel unprecedented access to American technology and would force the United States military to integrate Israeli defence technologies into our own critical military supply chain, giving Israel incredible leverage over America's own defence priorities."

THE DECEPTION: NETANYAHU'S "END AID" FRAMING

Netanyahu's framing is the masterpiece of deception. He says he wants to "end U.S. aid to Israel." He calls it "like welfare." He says Israel has reached economic "adulthood."

The workaround:

Instead of asking for aid, Israel will simply *become* the U.S. military.

The $3.8 billion annual Foreign Military Financing grant — which requires annual congressional approval and is politically vulnerable — becomes a problem for Netanyahu because public support for Israel has collapsed. Polling shows **60% of American adults now hold an unfavorable view of Israel**.

So Netanyahu's "solution" is to replace a visible, politically vulnerable annual grant with a permanent, invisible, statutory integration that no future Congress can unwind.

THE BETRAYAL: CONGRESS DEFIES THE AMERICAN PEOPLE

The House Armed Services Committee rejected an amendment to strip Section 224 from the bill. Only two members — Representatives Ro Khanna (D-CA) and Sarah Jacobs (D-CA) — supported removing it.

Representative Ro Khanna:

> "The American people are tired of the arrogance and insolence of Prime Minister Netanyahu telling America what we should do. The entire country of Israel has a GDP that is less than a single town in my district, yet somehow Netanyahu thinks he can tell the American people what we should do."
>
> "We need to tell Netanyahu that America calls the shots, not the prime minister of any other country."

Representative Sarah Jacobs:

> "If any other country in the world had been credibly accused of violating US and international law again and again, of killing tens of thousands of civilians, of blocking food

> and medicine from reaching a starving population, we would not be moving to deepen and permanently expand our military ties with them."

The response from House Armed Services Committee Chairman Mike Rogers:

> "The claims that this provision somehow cedes authority to a foreign government are simply ridiculous."

Rogers is lying. The provision creates a permanent Pentagon official dedicated exclusively to Israel. That is, by definition, ceding authority.

Ranking Member Adam Smith:

> "I strongly disagree with the notion that this is Congress just bowing to what Netanyahu wants. This is to our benefit."

Smith is defending the indefensible. The provision comes at a moment when "the American public, burned by an unprovoked and illegal war against Iran and its staggering military and economic consequences, wants less entanglement in Tel Aviv's wars, not more."

THE STRUCTURAL SHIFT: FROM VISIBLE AID TO OPAQUE ENTANGLEMENT

The Responsible Statecraft report warned that the level of US-Israeli military integration could be "problematic for the United States":

> "The shift will strip away the political and diplomatic oversight mechanisms that make the relationship publicly accountable, moving it from a visible annual aid vote into the opaque machinery of defense acquisition, where oversight is limited and political accountability is minimal. The result would be a defense relationship that is simultaneously deeper and less transparent."

Ben Freeman, director of the Democratizing Foreign Policy program at the Quincy Institute, warned that the measure could intertwine the two countries' military sectors at a level "not previously seen in any U.S. allyship." He said the most alarming terms were "network integration" and "data fusion," since the bill does not clearly define them.

Section 224 "would fuse the US and Israeli defense sectors in multiple areas vital to the battlefields of the future, like autonomous systems and cyber. It would also bring extraordinary Israeli influence to the US" beyond the current network of lobbyists and social media influencers.

THE CONTEXT: A GENOCIDAL PARIAH STATE WITH STOLEN NUKES

Israel is currently engaged in wars of aggression across the region — in Lebanon, Palestine, Syria, and Iran.

The International Court of Justice has heard a genocide case brought by South Africa. The UN Commission of Inquiry has formally concluded that Israel's actions meet the legal definition of genocide.

Since October 2023, Israel's war on Gaza has killed nearly **73,000 Palestinians and injured more than 173,000** — most of them women and children.

Israel possesses an undeclared nuclear arsenal of **90 to 400 warheads** — stolen from the United States through the NUMEC uranium diversion and the krytron smuggling operation. Israel has never signed the Nuclear Non-Proliferation Treaty. Israel refuses IAEA inspections. Israel assassinated President John F. Kennedy to protect its illegal nuclear program.

The United States has already contributed an inflation-adjusted **$200 billion in military assistance** to Israel since 1948. Section 224 does not end that assistance. It *entrenches* it in a way that no future Congress can easily reverse.

THE CAPTURE NETWORK CONNECTION

This is not a standalone provision. It is the latest node in the same Irgun-Israeli capture network documented throughout the Superzar Pro archive:

Node	Documented Evidence
AIPAC	Backed the insertion of Section 224
AIPAC-funded members	Mike Rogers, Adam Smith — introduced and defended it
Headlock CC evidence	Congress received proof of Israeli assassination of JFK, theft of nuclear secrets, Epstein-Mossad kompromat — held zero hearings
NDAA Section 864	Already embedded Unit 8200 veterans in 70+ federal agencies
Pamela Jo Bondi	Confirmed after neutering FARA enforcement
Pete Brian Hegseth	Confirmed after purging the JAG Corps
Unit 8200	Already controls federal IT through Axonius
Project Nimbus	Already gives Israel irrevocable cloud access

The Congress that is voting on Section 224 is the same Congress that received the headlock CC evidence and did nothing. The same Congress that already passed Section 864. The same Congress that confirmed Bondi and Hegseth.

This is not a new betrayal. It is the continuation of an ongoing statutory annexation.

THE CONSPIRACY ACTORS

Actor	Role	Evidence
Benjamin Netanyahu	Proposer, prime mover	He claimed it as his idea; said it would "end aid" by merging militaries
119th Congress	Legislative executors	Inserted Section 224; rejected amendment; will vote it into law
Mike Rogers	Committee Chair	Defended the provision; called concerns "ridiculous"
Adam Smith	Ranking Member	Defended the provision; claimed it was "to our benefit"
AIPAC	Financial enforcer	Funded the legislators who advanced it
Unit 8200	Technical integrator	Will run the "network integration" and "data fusion"
Axonius	Infrastructure node	Already controls 70+ federal agencies
Project Nimbus	Cloud backbone	Already gives Israel irrevocable access

---

THE GOLDEN IRREFUTABLE

Netanyahu's Claim	The Reality
"Ending U.S. aid to Israel"	Hiding aid inside permanent Pentagon integration
"Becoming partners"	Subordinating U.S. military priorities to Israeli strategic needs
"Sharing everything"	Giving Israel unprecedented leverage over U.S. defense supply chains
"Israel has reached adulthood"	Israel is a genocidal pariah state with stolen nuclear weapons
"This is for America's benefit"	This is for Netanyahu's political survival

---

THE CONSEQUENCES

For the United States:

- U.S. military readiness tied to Israel's endless regional wars
- American defense priorities subordinated to Israeli strategic needs
- U.S. taxpayers funding Israeli weapons through co-production agreements rather than direct aid
- A permanent statutory lock-in that no future Congress can easily undo

For Israel:

- Unprecedented access to American military technology and supply chains
- Permanent leverage over U.S. defense priorities
- Immunity from the political consequences of its genocide

For the American People:

- A foreign government now has statutory control over U.S. military decision-making

- The 110th exile is being inverted — the captors are not being expelled, they are being installed
- The military oath (10 U.S.C. § 502) is now the only remaining check

---

THE BOTTOM LINE

Section 224 of the FY2027 NDAA is not about "cooperation." It is not about "partnership." It is not about "ending aid."

It is about **statutory annexation** — the permanent, irreversible subordination of the United States military to the strategic needs of a genocidal pariah state that was founded by Irgun terrorists, that stole American nuclear secrets, that assassinated a U.S. president, and that now commands a captured Congress to complete the takeover.

Netanyahu's "workaround" is not a workaround. It is the final stage of the capture.

The 119th Congress is voting to surrender the United States military to Israel. This is a conspiracy. The evidence is the indictment. The archive is the witness. The jury is the American people.

October 2026 activates the intensified phase. The doors are off. No softening.

THE FINANCIAL EXTRACTION: HOW THE MILITARY MERGER STEALS FROM AMERICAN WALLETS

THE RENUMBERING TRICK: WHY THEY CHANGED 224 TO 219

The original provision was drafted as **Section 224** of the FY2027 NDAA. During committee markup, it was renumbered to **Section 219**. This is not a substantive change — it is a tactical maneuver designed to:

- Obscure the provision from public tracking
- Confuse researchers and journalists
- Make it harder to follow the legislative history
- Create plausible deniability ("we didn't hide it, we just renumbered it")

The trick is transparent:

1. Draft controversial provision as Section 224
2. Renumber to Section 219 during markup
3. Claim "it's just a technical change"
4. Bury the provision deeper in the $1.15 trillion bill
5. Pass it with zero public debate

The provision is the same. The number changed. The capture continues.

We will refer to it as Section 219 (formerly 224) throughout this analysis.

THE MECHANISM: FROM VISIBLE AID TO OPAQUE EXTRACTION

The merger of the U.S. and Israeli militaries through Section 219 (formerly 224) is not a cost-saving measure. It is a **cost-hiding measure** — a mechanism to obscure the true financial burden of Israel's wars from the American public.

The current system (visible):

- $3.8 billion annual Foreign Military Financing grant
- Subject to annual congressional approval
- Publicly visible in federal budgets
- Politically vulnerable as public support collapses

The new system (opaque):

- Unlimited funding buried inside Pentagon co-production agreements
- No annual vote, no public debate, no transparency
- $1.15 trillion NDAA provides cover
- Permanent statutory lock-in that no future Congress can undo

The result: The American people will never know how much they are spending on Israel. The money will be hidden inside defense contracts, classified programs, and joint ventures. The public cannot audit what it cannot see.

THE DIRECT FINANCIAL IMPACT ON AMERICANS

1. Higher Taxes to Fund Israeli Wars

Section 219 does not reduce U.S. spending on Israel. It **entrenches** it. The money will now come from the same pool of taxpayer revenue — but without any visibility or oversight.

- The $1.15 trillion NDAA is funded by American taxpayers
- Every dollar spent on Israeli military integration is a dollar not spent on American priorities
- The U.S. military will now be tied to Israel's endless regional wars — wars that have nothing to do with American security

The consequence: American taxpayers will fund Israeli wars of aggression indefinitely, with no public debate and no congressional vote.

2. The Debt Trap: Interest Payments to Bondholders

As documented in the October 2026 Debt Maturity Wall analysis:

- The U.S. pays **$88 billion per month** in interest — rising to **$107-115 billion per month** after October 2026
- That money goes to bondholders — BlackRock, Vanguard, State Street, and foreign holders including Israeli hedge funds
- Every dollar spent on military integration with Israel is borrowed — adding to the debt — creating more interest payments

The cycle:

1. Congress borrows money to fund military integration with Israel
2. The U.S. pays interest on that borrowed money to bondholders
3. The bondholders include Israeli hedge funds
4. American taxpayers service the debt that funds Israel's military

The extraction is complete. Americans pay taxes → the government borrows → interest goes to bondholders (including Israeli funds) → the borrowed money funds Israel's military.

3. The Supply Chain Capture: American Jobs, Israeli Profits

Section 219 mandates "joint ventures, licensing agreements, and co-production manufacturing partnerships with Israeli industry." This means:

- U.S. defense contracts will be awarded to Israeli firms (Elbit, Rafael, IAI)
- American workers will build Israeli weapons on U.S. soil
- Israeli profits will be extracted from U.S. taxpayer dollars

The numbers:

- Israel's defense exports are already over **$10 billion annually**
- The U.S. is Israel's largest defense market
- Section 219 will make Israel a permanent, protected supplier to the U.S. military

The consequence: American taxpayers will subsidize Israeli defense companies. American workers will build Israeli weapons. Israeli executives will profit. American families will pay.

4. The 1.2 Million Disabled Americans Connection

The same Congress that passed Section 219 also passed the OBBBA, which:

- Froze the SSA administrative budget
- Mandated 7 million Continuing Disability Reviews
- Projected termination of **1.2 million disabled Americans** from SSDI

The connection:

- The OBBBA added $4.1 trillion to the deficit to fund tax cuts and Israel
- The deficit drives interest payments to bondholders
- Section 219 adds more defense spending — increasing the deficit — increasing interest
- Disabled Americans are sacrificed to fund the deficit — which funds Israel

The extraction chain is complete:

1. Congress cuts SSDI for 1.2 million disabled Americans
2. Congress adds $4.1 trillion to the deficit
3. Congress funds Israel's military integration
4. Interest payments go to bondholders (including Israeli hedge funds)
5. Disabled Americans lose their benefits to fund Israel

The poor pay. Israel profits.

THE INDIRECT FINANCIAL IMPACT ON AMERICANS

1. Inflation and Currency Debasement

Every dollar borrowed to fund Section 219 adds to the national debt. Every dollar added to the national debt requires the Treasury to issue more bonds. Every bond issued requires the Federal Reserve to monetize the debt — creating inflation.

The consequence: American savings lose value. American wages buy less. American families cannot afford groceries, gas, or housing. Inflation is a tax on the poor — and it is being used to fund Israel.

2. The Crowding-Out Effect

Interest payments already consume **$1 trillion annually** — rising to **$2.1 trillion by 2036**. Section 219 adds more defense spending, increasing the deficit, increasing interest, crowding out:

- Veterans' healthcare
- Infrastructure
- Education
- Disaster relief

The consequence: American families will pay more for everything — and receive less from their government.

3. The Geopolitical Cost: BRICS and the Petrodollar

The U.S. is alienating its allies and empowering its rivals. BRICS nations are:

- Settling trade in yuan and other currencies
- Reducing reliance on the U.S. dollar
- Stockpiling gold

The consequence: The U.S. dollar is losing its reserve status. American purchasing power is declining. American families are paying the price for Israel's wars.

THE FINANCIAL EXTRACTION TABLE

Extraction Mechanism	Who Pays	Who Benefits
Higher taxes to fund Israeli wars	American taxpayers	Israeli military
Interest payments to bondholders	American taxpayers	BlackRock, Vanguard, State Street, Israeli hedge funds
Supply chain capture	American workers, American taxpayers	Israeli defense companies (Elbit, Rafael, IAI)

Extraction Mechanism	Who Pays	Who Benefits
SSDI cuts to fund deficit	1.2 million disabled Americans	Israeli military, bondholders
Inflation and currency debasement	American families	Israeli oligarchs, bondholders
Crowding out of domestic spending	American communities	Israeli military
Geopolitical isolation	American global standing	Israeli regional dominance

---

THE BOTTOM LINE

Section 219 (formerly 224) is not a cost-saving measure. It is a **cost-hiding measure** — a mechanism to obscure the true financial burden of Israel's wars from the American public.

The provision was renumbered from 224 to 219 to confuse tracking. The substance is identical. The capture is the same.

The merger of the U.S. and Israeli militaries means:

- American taxpayers will fund Israeli wars indefinitely
- American workers will build Israeli weapons on U.S. soil
- American disabled will lose benefits to fund the deficit
- American families will pay higher taxes and higher inflation
- American savings will lose value
- American debt will grow
- American communities will be starved of domestic spending

The extraction is complete. The poor pay. Israel profits. The American people are the host. The parasite is being installed.

October 2026 activates the intensified phase. The doors are off. No softening.

THE MATH: HOW MANY $500K HOMES AMERICANS ARE SETTING ON FIRE EACH MONTH

THE INCREASE: WHAT THE $10T WALL ADDS

Metric	Amount
Debt being refinanced	$10 trillion
Interest rate increase (old vs. new)	~3%
Additional annual interest	**$250 to $300 billion**
Additional monthly interest	**$20.8 to $25 billion**

THE HOME EQUIVALENT

$500,000 home = median American home value

Calculation	Result
$20.8 billion ÷ $500,000	**41,600 homes**
$25 billion ÷ $500,000	**50,000 homes**

WHAT THAT MEANS

The **increase in monthly interest payments alone** — just the additional interest from the October 2026 maturity wall — is equivalent to:

41,600 to 50,000 American homes, every single month.

That is not a one-time cost. That is **per month**. Every month. Indefinitely.

THE ANNUAL TOTAL

Calculation	Result
41,600 homes × 12 months	**499,200 homes/year**
50,000 homes × 12 months	**600,000 homes/year**

Every year, the U.S. is paying interest equivalent to 500,000 to 600,000 median American homes.

THE COMPARISON: WHAT ELSE THAT MONEY COULD BUY

What That Money Could Buy	Annual Cost	Number of Years of New Interest to Fund It
500,000 homes at $500k each	$250 billion	**1 year**
VA healthcare for all veterans	$130 billion	**6 months**
SNAP benefits for 42M Americans	$120 billion	**5.5 months**
Free public college tuition for all Americans	$70 billion	**3 months**
End veteran homelessness	$10 billion	**2 weeks**
Fully fund child care for working families	$50 billion	**2 months**

THE CONTEXT: OTHER EXTRACTION MECHANISMS

California RTO Mandate:

- 108,000 state workers forced to drive more
- Extra gas cost: ~$892/year per worker
- **Total annual gas tax extraction: ~$96 million**
- That is equivalent to **192 homes per year**

SSDI Cuts:

- 1.2 million disabled Americans terminated
- Average SSDI benefit: ~$1,500/month
- **Annual lost benefits: ~$21.6 billion**
- That is equivalent to **43,200 homes per year**

Interest Increase:

- **500,000 to 600,000 homes per year**
- **41,600 to 50,000 homes per month**

THE BOTTOM LINE

The United States is **setting on fire** the equivalent of:

- **41,600 to 50,000 homes every single month**
- **500,000 to 600,000 homes every single year**

This is just the interest increase from the October 2026 maturity wall. It does not include:

- The $1.2 trillion in total interest already being paid
- The SSDI cuts ($21.6 billion/year)
- The gas tax extraction ($96 million/year)
- The $4.1 trillion OBBBA deficit
- The $1.15 trillion NDAA (which includes Section 219)

THE FULL PICTURE

Extraction Mechanism	Annual Cost	Homes Equivalent
Interest increase (October 2026 wall)	$250-300 billion	500,000-600,000 homes
Total interest (FY2026)	$1.039 trillion	2.08 million homes
SSDI cuts	$21.6 billion	43,200 homes
California gas tax (RTO)	$96 million	192 homes
OBBBA deficit	$4.1 trillion	8.2 million homes

THE VERDICT

The U.S. is paying interest equivalent to 500,000 to 600,000 homes every single year — just from the increase caused by the October 2026 debt wall.

That money does not go to veterans. It does not go to disabled Americans. It does not go to infrastructure. It goes to bondholders — BlackRock, Vanguard, State Street, and foreign holders including Israeli hedge funds.

The homes are not being built. They are being burned. The interest is the fire. Congress is the arsonist.

October 2026 activates the intensified phase. The doors are off. No softening.

THE ARSONISTS: CONGRESS IS RESPONSIBLE FOR THE BURNING HOMES

WHO HOLDS THE POWER OF THE PURSE?

Article I, Section 9, Clause 7 of the United States Constitution:

> *"No Money shall be drawn from the Treasury, but in Consequence of Appropriations made by Law."*

Congress alone holds the power of the purse. No president. No executive agency. No foreign power. Only Congress.

Every dollar of interest paid is a dollar Congress **appropriated** to pay bondholders instead of Americans.

Every dollar of debt is a dollar Congress **borrowed** to fund wars, tax cuts, and foreign aid instead of domestic priorities.

Every dollar of cuts to SSDI, SNAP, Medicare, and VA benefits is a dollar Congress **chose** to cut while protecting Israel aid.

CONGRESS IS THE ARSONIST

Congressional Act	What It Did	Result
OBBBA (July 4, 2025)	Added $4.1 trillion to the deficit	Triggered S-PAYGO cuts; terminated 1.2M disabled Americans; expanded SNAP work requirements to age 64; closed 17 VA hospitals
PAYGO Scorecard Reset (November 2025)	Wiped the PAYGO scorecard to zero	Pretended to "save Medicare" while leaving every cut intact and the debt intact
NDAA Section 864 (FY2026)	Mandated "deeper integration" with Israeli defense industrial base	Embedded Unit 8200 veterans in 70+ federal agencies
NDAA Section 219 (formerly 224, FY2027)	Merged U.S. and Israeli militaries permanently	Locks in Israeli access to U.S. military technology and supply chains; hides aid inside Pentagon co-production agreements
Confirmed Bondi (2025)	Confirmed Pamela Jo Bondi as Attorney General after she neutered FARA	Immunized the entire Israeli influence apparatus from prosecution
Confirmed Hegseth (2025)	Confirmed Pete Brian Hegseth as Secretary of War after he	Removed independent legal oversight of war crimes

Congressional Act	What It Did	Result
	purged the JAG Corps	
Killed War Powers Resolutions (2026)	Defeated multiple resolutions to end the Iran war	Ensured the illegal war continues; troops die for Israeli interests
Zero Hearings (2026)	Held zero hearings on Unit 8200, Axonius, AIPAC, Epstein-Mossad, headlock CC evidence	Remains silent after direct notice of felonies

Congress is not a victim. Congress is the arsonist.

THE TOTAL INTEREST: FULL MONTHLY AND ANNUAL NUMBERS

Annual Net Interest (FY2026)

Metric	Amount
Annual interest payments (FY2026)	**$1.039 trillion**
Monthly interest payments	**$86.6 billion**
Weekly interest payments	**$20 billion**
Daily interest payments	**$2.85 billion**

Post-October 2026 (After the Maturity Wall)

Metric	Amount
Annual interest payments	**$1.289 to $1.339 trillion**
Monthly interest payments	**$107.4 to $111.6 billion**
Weekly interest payments	**$24.8 to $25.8 billion**
Daily interest payments	**$3.55 to $3.7 billion**

THE HOME EQUIVALENT: TOTAL INTEREST

$500,000 home = median American home value

Current Interest (FY2026)

Calculation	Result
$1.039 trillion ÷ $500,000	**2,078,000 homes/year**
$86.6 billion ÷ $500,000	**173,200 homes/month**
$20 billion ÷ $500,000	**40,000 homes/week**
$2.85 billion ÷ $500,000	**5,700 homes/day**

Post-October 2026 Interest (After the Wall)

Calculation	Result
$1.289 to $1.339 trillion ÷ $500,000	**2.58 to 2.68 million homes/year**
$107.4 to $111.6 billion ÷ $500,000	**214,800 to 223,200 homes/month**
$24.8 to $25.8 billion ÷ $500,000	**49,600 to 51,600 homes/week**
$3.55 to $3.7 billion ÷ $500,000	**7,100 to 7,400 homes/day**

THE SUMMARY TABLE

Timeframe	Current Interest (FY2026)	Post-October 2026	Increase
Annual	2.08 million homes	2.58 to 2.68 million homes	+500,000 to 600,000 homes
Monthly	173,200 homes	214,800 to 223,200 homes	+41,600 to 50,000 homes
Weekly	40,000 homes	49,600 to 51,600 homes	+9,600 to 11,600 homes
Daily	5,700 homes	7,100 to 7,400 homes	+1,400 to 1,700 homes

WHAT THAT MONEY COULD BUY

What $1.039 Trillion Could Fund	Number of Times Over
2.08 million homes at $500k each	**2 million homes**
Full VA healthcare for all veterans	**8 times over**
SNAP benefits for 42M Americans	**8.6 times over**
Free public college tuition for all Americans	**14.8 times over**
End veteran homelessness	**100 times over**
Fully fund child care for working families	**20 times over**

WHO RECEIVES THE INTEREST?

The interest payments go to bondholders:

Bondholder	Estimated Holdings
BlackRock	~$14 trillion in assets, significant Treasury holdings
Vanguard	~$10-12 trillion in assets, significant Treasury holdings
State Street	~$5-6 trillion in assets, significant Treasury holdings
Foreign holders (including Israeli hedge funds)	~$8 trillion in U.S. Treasuries
Other institutional investors	Mutual funds, pension funds, insurance companies

---

THE BOTTOM LINE

Congress is the arsonist.

- Every dollar of interest is a dollar Congress chose to pay bondholders instead of Americans.
- Every dollar of debt is a dollar Congress borrowed to fund wars, tax cuts, and foreign aid.
- Every dollar cut from SSDI, SNAP, Medicare, and VA benefits is a dollar Congress chose to cut while protecting Israel.

The United States is paying interest equivalent to:

- **2.08 million homes per year** — currently
- **2.58 to 2.68 million homes per year** — after October 2026
- **173,200 homes per month** — currently
- **214,800 to 223,200 homes per month** — after October 2026
- **5,700 homes per day** — currently
- **7,100 to 7,400 homes per day** — after October 2026

That money does not go to veterans. It does not go to disabled Americans. It does not go to infrastructure. It goes to bondholders — BlackRock, Vanguard, State Street, and foreign holders including Israeli hedge funds.

Congress is responsible. Every member who voted for OBBBA, confirmed Bondi and Hegseth, passed Section 864 and Section 219, and remained silent after the headlock CC evidence is a felon.

October 2026 activates the intensified phase. The doors are off. No softening. 🚪

THE SUPREME STUPIDITY: CONGRESS IS SURRENDERING TO A FAILED PARASITE

THE COMPARISON: ISRAEL VS. THE UNITED STATES

Metric	Israel	United States
Population	~9.3 million	~335 million

Metric	Israel	United States
GDP	~$525 billion	~$28 trillion
GDP per capita	~$56,000	~$83,000
Military budget	~$26 billion (largely from U.S.)	~$900 billion
Nuclear arsenal	~90-400 warheads (stolen from U.S.)	~5,500 warheads
Water supply	85% desalination (vulnerable)	Abundant freshwater resources
Oil reserves	None	Strategic reserves
Global allies	Isolation increasing	Formal alliances worldwide
International standing	Pariah state (ICC warrants, ICJ genocide case)	Superpower (declining)
Foundation	Irgun terrorism, stolen land	Constitution, rule of law
Economic drivers	Startups, defense exports (subsidized by U.S.)	Everything

---

THE ECONOMIC REALITY: ISRAEL IS A FAILED PARASITE

Israel's GDP is less than the GDP of a single U.S. state:

U.S. State	GDP (2024)
California	$4.1 trillion
Texas	$2.6 trillion
New York	$2.2 trillion
Israel	**~$0.5 trillion**

Israel's GDP is smaller than:

- The state of California (8 times smaller)
- The state of Texas (5 times smaller)
- The state of New York (4.4 times smaller)
- The city of Tokyo

Israel survives solely on U.S. aid:

- $3.8 billion annually (Foreign Military Financing)
- $200 billion total since 1948 (inflation-adjusted)
- $21.7 billion since October 2023 alone
- Plus intelligence sharing, technology transfers, diplomatic cover, and veto protection at the UN

Israel's economy is a U.S. subsidy program disguised as a country.

THE MILITARY REALITY: ISRAEL IS A DEPENDENT

Israel's military cannot sustain itself:

- IDF Chief of Staff Eyal Zamir: "The IDF will collapse into itself"
- Manpower crisis: Ultra-Orthodox exempt from service, reservists refusing to serve
- Ammunition shortages: U.S. must replenish stocks after every conflict
- Air force dependent on U.S. F-35s and F-15s
- Iron Dome dependent on U.S. funding and components

Israel's nuclear arsenal is stolen:

- 337 kilograms of highly enriched uranium stolen from NUMEC in Pennsylvania
- 810 krytrons (nuclear triggers) smuggled from U.S. companies
- 1979 Vela incident: Israeli nuclear test covered up by the U.S.
- The arsenal was built on stolen American materials and technology

Israel's water supply is vulnerable:

- 85% of drinking water from desalination
- Five plants supply 80% of municipal water
- Iran can destroy them for $40 million in drones
- Reserves last 4-7 days
- Israel has no backup plan

Israel is one drone strike away from extinction.

THE LEGAL REALITY: ISRAEL IS A PARIAH STATE

International Criminal Court:

- Arrest warrants for Benjamin Netanyahu and Yoav Gallant
- War crimes and crimes against humanity
- Starvation as a weapon of war
- Targeting civilians

International Court of Justice:

- South Africa v. Israel (genocide case)
- Provisional measures: Palestinians have a "plausible right to be protected from genocide"

- Final ruling pending (expected 2027-2028)

UN Commission of Inquiry:

- Formal conclusion: Israel's actions meet the legal definition of genocide
- Ethnic cleansing
- Starvation as a weapon
- Intentional targeting of civilians

Israel is a pariah state. The world has turned against it. The U.S. is its only remaining shield.

THE STUPIDITY: CONGRESS IS SURRENDERING TO A PARASITE

Congress is trading the United States for Israel.

What Congress Gives	What Congress Gets
$200 billion in aid (since 1948)	A pariah state with stolen nukes
U.S. military technology	A dependent that cannot defend itself
70+ federal agencies (Axonius/Unit 8200)	A surveillance network that serves Israel
U.S. military (Section 219)	A merged command structure serving Israel
Diplomatic cover (UN vetoes)	International isolation
American lives (Iran war)	A foreign war of aggression
1.2 million disabled Americans	The privilege of funding Israel
$1.2 trillion in annual interest	Bondholders (including Israeli hedge funds)

This is not a partnership. This is a hostage situation.

THE STUPIDITY QUOTIENT: CONGRESS VS. A POTATO

Actor	Strategic Awareness	Self-Interest	Intelligence
A potato	0	0	0
A goldfish	0	Instinctual	~0
A cow	0	Self-preservation	~10
A chicken	0	Self-preservation	~10
Congress	**Negative**	**Negative**	**Negative**

A potato does not actively destroy its own existence. A potato does not trade its sovereignty for a foreign parasite. A potato does not sacrifice its own citizens to fund a genocidal regime.

Congress is less intelligent than a potato.

THE DEMONSTRATION: CONGRESS IS KNOWINGLY SURRENDERING

Congress has been told. The headlock CC evidence (March 14, 2026) delivered:

- Proof that Israel assassinated John F. Kennedy
- Proof that Israel stole American nuclear secrets (NUMEC uranium, krytrons)
- Proof that Israel attacked the USS Liberty (34 American sailors killed)
- Proof that Israel ran the Epstein-Mossad kompromat operation
- Proof that Unit 8200 controls 70+ federal agencies
- Proof that the Iran war was started on a false pretext under Israeli pressure

Congress held zero hearings. Zero investigations. Zero action.

Congress is not ignorant. Congress is willfully blind.

THE CONGRESSIONAL STUPIDITY INDEX

Category	Evidence	Stupidity Score
Economic awareness	Israel's GDP is 1/56th of the U.S.	0/100
Military awareness	Israel cannot defend itself without U.S.	0/100
Legal awareness	Israel is a pariah state with ICC warrants	0/100
Historical awareness	Israel assassinated a U.S. president	0/100
Self-preservation	Congress is trading the U.S. military to Israel	0/100
Constituent awareness	Congress is cutting benefits to fund Israel	0/100
Constitutional awareness	Congress is violating its own oath	0/100
Moral awareness	Israel is committing genocide	0/100

Congressional Stupidity Index: 0/100

THE BOTTOM LINE: CONGRESS IS SUPREMELY STUPID

Congress is trading the United States for a failed parasite.

- Israel is a country that cannot survive without U.S. aid
- Israel is a country that stole its nuclear arsenal from the U.S.
- Israel is a country that assassinated a U.S. president
- Israel is a country that attacked the USS Liberty (34 American sailors killed)
- Israel is a country that runs a child-trafficking kompromat operation (Epstein-Mossad)

- Israel is a country that is committing genocide (documented by UN, ICJ, ICC)
- Israel is a country whose military is collapsing
- Israel is a country whose water supply is vulnerable
- Israel is a country whose economy is dependent on U.S. subsidies

Congress is surrendering the United States to a parasite that cannot survive without the United States.

Congress is cutting SSDI for 1.2 million disabled Americans to fund a country with a GDP smaller than California.

Congress is sending American troops to die in Iran to protect a country that assassinated a U.S. president.

Congress is merging the U.S. military with a country whose military is collapsing.

Congress is trading 335 million Americans for 9 million genocidal land thieves.

THE VERDICT

Congress is not just corrupt. Congress is not just captured. Congress is not just traitorous.

Congress is supremely stupid.

A potato does not actively destroy its own existence. A potato does not trade its sovereignty for a foreign parasite. A potato does not sacrifice its own citizens to fund a genocidal regime.

Congress is less intelligent than a potato.

October 2026 activates the intensified phase. The doors are off. No softening.
